

Coma Testimonial

From Higia Fallon

"My daughter-in-law received Qigong treatments from Ken Kramer while she was in a coma. She suffered from Lupus and her heart stopped beating twice. She ended up in the hospital seven months after having a baby. After a few treatments she started moving her feet and then she came out of the coma. Ken was able to help her come out of the coma with his treatments and improved her health enough for her to come out of the hospital and be moved to a rehab facility."
